Senior UI/UX Designer with 15+ years of experience designing enterprise-scale digital products, responsive applications, and complex workflow systems across healthcare, SaaS, education, and business platforms. Specialized in Product Design, UX Strategy, Design Systems, Interaction Design, and AI-assisted design workflows.

Experienced in leading end-to-end UX initiatives for complex data-driven products, collaborating closely with product managers, engineers, and business stakeholders to deliver scalable, accessible, and user-centered experiences. Strong expertise in Figma, responsive design systems, enterprise workflows, usability optimization, and front-end collaboration using HTML/CSS.

Passionate about combining AI-assisted research, solution mapping, rapid prototyping, and data visualization techniques to improve design efficiency and product innovation.

UI/ UX DESIGN TEAM LEAD

2017 Dec- Present

Grasko Solutions Pvt. Ltd.

Product Design using Figma, Framer, Sketch, Adobe XD, Photoshop, Illustrator, Invision etc.

Leading the UI/UX transformation for KanTime, designing intuitive, accessible, and scalable experiences for enterprise healthcare solutions. I lead a multidisciplinary team in delivering high-fidelity interfaces across web, tablet, and mobile platforms using modern design and AI-assisted workflows. My role spans the end-to-end UX lifecycle—from user research, journey mapping, wireframing, prototyping, and design systems to developer handoff and implementation reviews. I collaborate closely with product, engineering, and business stakeholders to ensure responsive, user-centric, and consistent experiences while driving accessibility, design quality, and continuous UX improvements.

UI/ UX DESIGNER

2016 Jan- 2017 Dec

iNurture Education Solutions Pvt. Ltd.

UI designing, UX designing, Social Media Ads, Emailers etc.

Led the design of high-conversion landing pages and user interfaces for a major EdTech provider, focusing on delivering complex course curricula to prospective students. I transformed intricate academic data into intuitive digital experiences while simultaneously managing the visual identity for multi-channel social media promotions. My role also extended to physical touchpoints, where I designed comprehensive print brochures for partner universities and institutes.

SENIOR DESIGNER

2014 Oct- 2015 Dec

Fourth Ambit Technologies Pvt Ltd

UI designing, Social Media Ads, Emailers, Newsletters, HTML etc.

At Fourth Ambit, my focus was on creating a seamless digital experience for a dedicated alumni-faculty portal. I bridged the gap between design and development by crafting intuitive UI layouts and converting them into mobile-first, responsive web pages using modern CSS frameworks. My role also encompassed a heavy focus on digital marketing, where I designed cohesive visual assets for social media campaigns and email marketing to strengthen the platform's online presence.

CREATIVE DESIGNER

2012 Jun- 2014 Sep

Strat-Agile Pte Ltd

Web and Mobile app design, Visual and Print design, HTML & CSS etc.

Contributed to a high-impact Singaporean agency serving a diverse international clientele across China, Australia, and Dubai. I played a dual role in bridging the gap between aesthetics and code—designing intuitive web and mobile interfaces while simultaneously executing front-end development (HTML/CSS). My work spanned the full creative spectrum, including social media campaigns, e-brochures, and comprehensive brand identity systems.

PRODUCT DESIGN & UX

- Product Design & UX Strategy
- User Research (Qualitative & Quantitative)
- Information Architecture & User Flows
- Interaction Design & Micro-interactions
- Workflow & Dashboard Design
- Responsive & Mobile-First Design
- Design Systems & Component Libraries
- High-Fidelity Prototyping
- Usability Testing & Heuristic Evaluation
- Accessibility & WCAG Best Practices
- Enterprise SaaS & Data-Driven UX
- Cross-functional Collaboration
- Design Leadership & Mentoring

AI-ASSISTED DESIGN WORKFLOWS

- AI-Assisted UX Research
- AI-Powered Solution Mapping
- AI-Driven User Journey Exploration
- AI-Based Graphical Representation
- AI-Assisted Prototyping
- AI-to-HTML/CSS/JS Workflow Support

DESIGN TOOLS

- Figma
- Framer
- Sketch
- Adobe XD
- Axure RP
- InVision

ADOBE TOOLS

- Photoshop
- Illustrator
- Premier Pro
- Aftereffects
- Audition
- Indesign

WEB DESIGNER

2009 Nov- 2012 May

Taurus web solutions

Website designing, HTML, CSS, Animations, Print and Brand designing etc.

Taurus Web Solutions primarily focuses on website development for various companies in the US, operating as an agency that creates numerous websites and landing pages. I had the opportunity to work as both a Designer and an HTML Developer. Additionally, some clients required branding and print design services, and I was actively involved in those projects as well.

GRAPHIC DESIGNER

2007 Sep- 2009 Oct

Mixo Graphics

Graphic designing, 2D Animations, Print and Brand designing etc.

Delivered comprehensive design and animation solutions for a diverse portfolio of small businesses and industrial clients. I was responsible for the end-to-end creation of brand identities, including logos, brochures, and large-scale print materials such as flex boards and corporate stationery. Additionally, I expanded the agency's service offerings by designing and producing minimal 2D animations for local television advertisements.

KEY PROJECTS

KanTime Scheduling & Visit Management Platform

Goal:
Simplify and optimize clinician scheduling and visit management across web and mobile platforms.

My Role:
Senior UI UX Deisgner & Team Lead

Responsibilities:

- Team Leading both Design and Developement
- Defined UX strategy, personas, and user journeys
- Designed IA, interaction models, and high-fidelity prototypes

Outcome:

- 50% faster scheduling time for coordinators
- 50% reduction in visit conflicts and rescheduling errors
- Improved staff satisfaction through clear workflows

Key Features:

- Smart scheduling calendar (daily, weekly, monthly)
- Auto alerts for overlaps, missed visits, and compliance issues

UX Challenges Solved:

- Ensuring clinicians could complete critical tasks without data loss.
- Simplified complex scheduling and visit workflows.
- Reduced check-in/check-out errors by introducing clear geo-fencing feedback

KanTime Mobile App – iOS & Android

Goal:
Enable clinicians and caregivers to manage schedules, patient visits, and documentation in low or no-internet environments.

My Role:
Senior UI UX Deisgner & Team Lead

Responsibilities:

- Team Leading both Design and Developement
- User Research & UX Strategy
- Information Architecture & User Flows
- Prototyping & Usability Testing

Outcome:

- 50% improvement in clinician task completion efficiency
- 50% reduction in check-in related support issues
- Reduced missed and incorrect check-ins

Key Features:

- One-tap check-in / check-out with geo-fencing validation
- Offline task documentation, mileage tracking, and signature capture

UX Challenges Solved:

- Designed workflows for no-internet conditions without data loss
- Simplified complex visit and scheduling flows for time-critical clinical work
  Reduced check-in/check-out errors using clear geo-fencing feedbacks.

Education

DIPLOMA IN MULTIMEDIA 2006 - 2007
Keltron Animation Campus, CMS College, Kottayam, Kerala

BCOM 2004 - 2007
IGNOU, Kaloor, Kochi, Kerala

PLUS TWO 2002 - 2004
S N H S S, Kanjikkuzhy(Idukki), Kerala

SSLC 2001 - 2002
S N H S S, Kanjikkuzhy(Idukki), Kerala

Key Achievements

- Designed multiple user interfaces that improved customer satisfaction by 30%.
- Developed a cross-platform design system that reduced development time by 40%.
- Led UX initiatives that resulted in higher adoption rates for internal tools.
